

Anticipate. Protect. Defend your brand.

Governance

- ISO 27001 Certified
- Strong SLA commitment
- Secure administration with SSO (Single Sign-On)
- User permissions management
- Caching DNS technology for improved redundancy
- Extra security feature to control change management
- SSL Certificates from renown providers
- High-performance DNS with Anycast technology
- Propagation in less than 250 ms and DNS supporting AXFR
- Interoperability with open source tools
- DNS traffic analytics solutions

GANDI uptime SLA is a really important thing for us. Their API and SSO services are also a must have for better scaling and secure our domains management.

Strategy

- Content monitoring (web, marketplace, app store, social media)
- Takedown of phishing, scam, copyright violations
- Extra judicial remediation of IP infringements
- Domain name audit and monitoring (incl. web3 and sub-domains)
- Blocking products (GlobalBlock, Uni EPS, DPML, AdultBlock, NameBlock)
- Backorders and anonymous acquisitions
- Automated digital threat detection
- Risk assessment and gap mitigation

The real advantage of Gandi's offer is the excellent guidance provided by our account manager.

Guidance

- Domain portfolio migration and consolidation
- Senior key account managers with broad expertise
- Portfolio assessment and strategic analysis
- Free public API and user intuitive web interface
- Local presence service
- Whois anonymisation service
